

A new depth to the dial. A new sparkle to the case.

All the defining characteristics of the Sharp Edged Series are here. The hemp leaf dial pattern has a depth and texture that catch the eye. The case and bracelet incorporate several flat surfaces that have a sharpness that allows the watch to shine from every angle. The precisely engineered and polished surfaces and the crisp edges of the case silhouette contrast with the subtle hairline finish to create a pleasingly multi-dimensional effect. This new design adds an extra sparkle with more mirror-finished surfaces and the two-tiered dial adds another layer of fascination. For the first time in this series, Caliber 6R38 powers two of the four watches and provides a power reserve of 70 hours. The other two use the multi-hand Caliber 6R21.
