Japanese Beauty from GINZA

Ginza continues to fascinate the world.
Inspired by this city where tradition
and the latest trends meet,
the timepieces of this new collection
mark the passing of time,
celebrating the timelessness of SEIKO beauty.

Japanese Deep Red

Deep red "Kurenai"
is the color of confidence
that draws on feminine charm,
embracing the heart's passion.

The brilliant expressions of the multilayered dial of each timepiece change based on reflected light. They reveal hues from the traditional Japanese concept of color, portraying the transient and subtle beauty of nature. Along with the leather strap colorfully finished even on the reverse side, each timepiece gorgeously decorates the wrist.

Japanese Beauty

from GINZA

Graceful grey "Aoshiro-tsurubami" is a chic and polished blend of classic and modern, evoking the image of cobblestones of Ginza's back streets.

"Ruri-iro," the color of the deep blue evening sky, beautifully embellishes the wrist.

"Sakura-iro," representing a delicate pink color of spring, is a lasting homage to ephemeral beauty.

"Gofun," the color of powdered seashell used in elegant Japanese cosmetics, features a beautiful white look.
