How to attach a pull-through type band

This band has a mechanism that makes it easy to replace the band yourself. Please read the instructions carefully before replacing the band.

Band

Since the band comes into direct contact with the skin, it may get dirty with sweat and dust. Lack of care may accelerate deterioration of the band or cause skin irritation or a stain on the sleeve edge. The watch requires diligent care for long-term use.

- **Fabric band**
  - Natural skin oil and dirt easily adhere to the band because it has a braided structure.
  - Beware of fraying, damage, etc., caused by catching this product on other things.
  - Note that the band may become discolored due to friction when wet with sweat or rain and that its color may transfer to other clothing.
  - Beware of static electricity caused by friction with clothing material.
  - If natural skin oil or dirt adheres to the band, gently wipe it off immediately with a dry cloth, etc.
  - When drying the band, dry it in an airy place out of direct sunlight.
  - The texture of the band may change if it is wetted with sweat or rain and that its color may transfer to other clothing.
  - Beware of static electricity caused by friction with clothing material.
  - If natural skin oil or dirt adheres to the band, gently wipe it off immediately with a dry cloth, etc.

- **Cautions**
  - Ensure that the spring bars are securely attached to the case.
  - Ensure that the buckle and fixed loops are fixed and attached securely to the band.

- **Attaching a new band**
  - Ensure that the spring bars are securely attached to the case.
  - Ensure that the buckle and fixed loops are fixed and attached securely to the band.

- **Removing the band**
  - Remove the band from the case.

Pass the band across the back cover of the watch body and then between the 6 o'clock side of the case and the spring bar.

Pass the band across the back cover of the watch body and then between the 6 o'clock side of the case and the spring bar.

If the band is too long, fold and secure the tip of the band as illustrated above.
